Office of the Metropolitan Commissioner
Bangalore Metropolitan Region Development Authority (BMRDA)
1, Ali Askar Road, Bangalore- 560 052

NOTIFICATION

No. BMRDA/PROJ/ITRR/2007-08, Dated: 17th April, 2007

Sub : Development of the individual Town Ring Roads (ITRR), for Kanakapura, Ramanagaram, Magadi, Doddaballapura, Devanahalli, Hoskote, Anekal and Nelamangala in the Bangalore Metropolitan Region.

Ref : 1) No.BMRDA/PROJ/IRR-STRR/2005-06, Dated: 29th November 2006.
2) No. BMRDA/PROJ/IRR-STRR/2005-06, Date: 8th January 2007.

*****

The Structure Plan for the Bangalore Metropolitan Region (BMR), notified vide Government order No.UDD 51 BMR 2002 dated 21.09.2005 had proposed to develop a set of major road network for an integrated and balanced development of the BMR. There include the BMR-Satellite Town Ring Road (BMR-STRR), the BMR-Intermediate Ring Road (BMR-IRR), Individual Town Ring Roads (BMR-ITRR) and the various Radial Roads. The need for having these roads has become all the more important as well as urgent in the wake of the coming up of the new International Airport near Devanahalli in BMR. The development of the BMR-STRR, the BMR-IRR and the various Radial Roads was discussed in detail in the 8th, 9th and the 10th Meetings of the Executive Committee of the BMRDA wherein it was decided to undertake the survey work of these roads with a view to determine and freeze the alignments to facilitate the land acquisition and road development in the future. Accordingly, the Authority undertook a survey for determining the alignment of these roads through the Public Works Department (PWD). In course of the survey work, it was found desirable to develop individual town ring roads, in place of the traditional bypass, for 8 towns in the BMR that were coming in the alignments for the BMR-STRR and the BMR-IRR.

In the 11th Meeting of the Authority held on 25.10.2006, it was decided to declare the development of the Satellite Town Ring Road (BMR-STRR), the Intermediate Ring Road (BMR-IRR), the Individual Town Ring Roads(ITRR) and the various Radial Roads in the BMR as scheme under section 9 of the BMRDA Act, 1985, to freeze the alignments for these roads, as determined by the survey work, for further development and to prevent construction etc. on the alignments; to take action for development of these roads under various schemes of the Central and the State Governments including the systems of 'Build-Own-Operate-Transfer (BOOT)' etc. and to authorize the Metropolitan Commissioner to take

further action in these respects. Notifications have been issued cited under reference regarding development of the Satellite Town Ring Road and the Intermediate Ring Road. Salient features of the proposed BMR-ITRR are indicated in Annexure-1.

As of now, the detailed survey report has become available for the BMR-ITRR, which is indicated in a map form in Annexure-2 and in terms of village wise details in Annexure-3. it is also necessary to prescribe the Building Line for the entire alignment of these Individual Town Ring Roads.

Accordingly, the following directions are issued in terms of the sections 9 and 10 of the BMRDA Act, 1985.

1. The development of the Individual Town Ring Roads (ITRR) is declared as a Scheme under section of the BMRDA Act, 1985. A copy of the Scheme is placed at Annexure-1.

2. The alignment for the BMR-ITRR shall be as indicated in a map form in Annexure-2 and in terms of village wise details in Annexure-3 to this Notification. This would, however, be subject to minor changes as could come up during the development/ construction of the respective roads.

3. Notwithstanding anything contained in any law for the time being in force, except with the previous permission of the Bangalore Metropolitan Region Development Authority,, no authority or person shall undertake or permit any development within the alignments for the BMR-ITRR.

4. For the purposes of this Notification, "Development" with its grammatical variations would mean the carrying out of building, engineering, or other operations in or over or under the land or making of any material change in any building or land, or in the use of any building or land and includes redevelopment and forming of layouts and subdivision of any land including amenities.

5. Further, no authority or person shall undertake or permit any construction in a width of 10 meters building line for the entire alignments of these roads.

6. A copy of this Notification along with its Annexure and survey number wise details is placed on website Bangalore Metropolitan Region Development Authority,, namely, www.bmrda.kar.nic.in.

7. Copies of this Notification along with its Annexure are also available for perusal by the intending persons/ authorities in the following offices:

a. The Joint Director of Town Planning/ Deputy Metropolitan Commissioner, Bangalore Metropolitan Region Development Authority.

b. Deputy Commissioner, Bangalore (Urban) District, Bangalore.

c. Deputy Commissioner, Bangalore (Rural) District, Bangalore.

d. The Executive Engineer, PWD, Bangalore Division, Bangalore.

e. The Executive Engineer, PWD, Special Division, Bangalore.

f. The Assistant Executive Engineer, PWD sub Division, Anekal, Devanahalli, Doddaballapura, Hosakote, Kanakapura, Magadi, Nelamangala, Ramangaram, Bangalore (North) and Bangalore (South).

Sudhir Krishna
Metropolitan Commissioner,
Bangalore Metropolitan Region Development Authority,
Bangalore.

Annexure-1

SALIENT FEATURES OF THE PROPOSED BMR-ITRR

Bangalore is one the fastest growing city in Asia. The city is growing phenomenally in terms of economic activities and population. The salubrious environs of the city have attracted people throughout the world. Bangalore city has also become synonymous with the IT & BT and related industries. The growth potential of the city is enhanced by the proposed international airport. The unbridled growth of the city has however brought in concerns serious problems of traffic congestion and environmental concerns.

The economic growth of the city is largely industry-driven that generates the large requirement of motor transport. Consequently, the city and the surrounding area are facing acute pressure of traffic as the road network is not able to cope with the ever growing movement of goods and passenger traffic. The traffic related problem of the city are compounded due to criss –crossing of large number of national and state highway passing through the city. The growing traffic traversing in and through Bangalore has been leading to chaotic condition on the city roads, resulting in economic inefficiency manifested by traffic congestion resulting in increasing loss of man-hours, and delayed delivery of goods and services, besides adversely affecting the health and well being of the general public.

The Structure Plan prepared for the balanced growth of Bangalore Metropolitan Region provides a board framework for area planning and infrastructure development for the Bangalore Metropolitan Region including road networks consisting of concentric ring roads and radial roads. The Bangalore Metropolitan Region Intermediate Ring Road (BMR-IRR) links the various industrial hubs around Bangalore city like Harohalli, Badadi, Nelemangala, Devanahalli, Hosakote, Sarjapura, Jigani, Tavarekere etc. with the upcoming International Airport near Devanahalli by way of upgrading the existing road network, with suitable geometric improvements and fresh alignments.

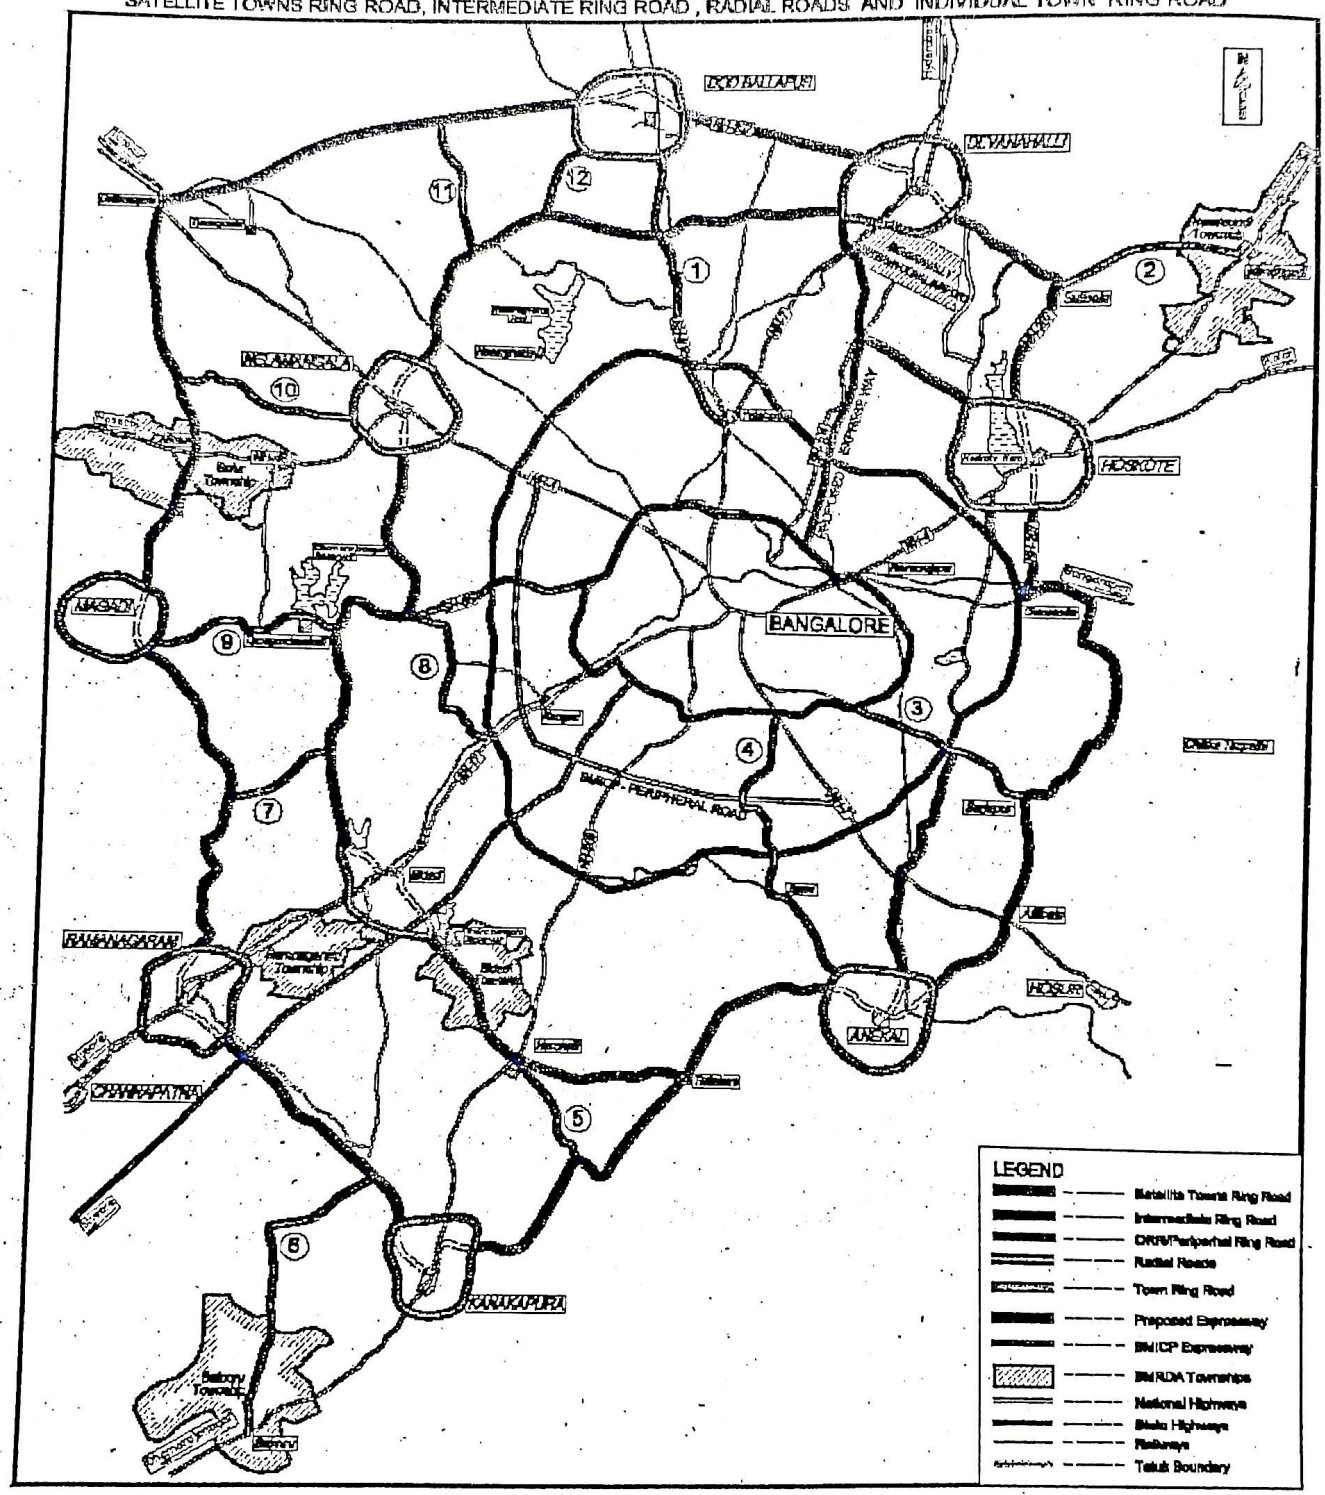

The major towns falling on the alignments of the BMR-STRR need to be bypassed. The ring roads would facilitate an even growth of the town and act as a bypass for the traffic over a much longer period. There are eight towns in the Bangalore Metropolitan Region that needs such Individual Town Ring Roads urgently. These are Devanahalli (NH-7) Kanakapura (NH-209), Hosakote (NH-207), Nelemangala (NH-48), and Ramanagara (SH-3), Anekal (SH-35) & Magadi (SH-3) The BMRDA has taken an advance action to conduct the survey for these Individual Town Ring Roads, in collaboration with the KPWD, with a view to prevent further development on the alignments and facilitate the land acquisition. Initially, it was planned to provide bypass on one side for important Towns along the proposed STRR/IRR. Subsequently, the concept of providing a full ring road to these towns was envisaged to have easy connectivity with STRR, IRR & RR and to prevent passing of high speed traffic through the developed and proposed development areas. Further Town Ring Roads will also act as bypass for all the other intersecting roads.

Hence, ITRR is finalized for Kanakapura (25Km), Ramanagaram (24Km), Magadi(15Km), Doddaballapura(24Km), Devanahalli (25Km), Hoskote (28Km), Anekal (24Km) and Nelamangala (27Km) Towns. The cumulative length of ITRR is 190 Km. It will be a 90 metre wide high speed corridor with 4 lanes and 2 service lanes on either side and with provision for a railway line also.
